INSTA-CLEAN
Cleaning Equipment

Quality Parts Washers Since 1977

- Spray Cabinets
- Conveyor Washers
- Pass Thru Washers
- Parts Baskets
- Oil Skimmers
- Detergents

“Performance and Value Built to Last”
INSTA-CLEAN Parts Washers Are Fast, Easy, Economical and Environmentally Friendly

INSTA-CLEAN parts washers can clean many types of materials: steel, cast iron, aluminum, plastic, even glass. Cleaning automotive parts, engine blocks and transmissions with the heaviest dirt and oil as well as newly machined parts, can be cleaned fast, efficient and economically. Open the parts washer door and place dirty parts on work tray, close the door and turn timer on (5-15) minutes. Parts come out oil free, dirt free and dry. Gaskets lift off parts with ease. Parts are protected from rust by a light film. Hot water (150-180F) and a mild alkaline detergent is sprayed at high volume and pressure from the 360 degree manifold that rotates 360 degrees around the parts, cleaning them fast and economically. Workers will no longer have the labor intensive job of manually cleaning parts in potentially harmful solvents and chemicals.

The time and labor saved with an INSTA-CLEAN parts washer will allow you to spend more time on the actual job, increasing productivity. Not only saving on labor cost but adding potentially thousands of dollars in added productivity. Businesses with manual cleaning operations as small as 15 minutes a day will profit from using an INSTA-CLEAN parts washer. INSTA-CLEAN parts washers are designed to operate as economical as possible. Higher horsepower gives faster cleaning. Thermo insulation saves on heat loss.
**INSTA-CLEAN’s Free Floating Manifold Bearing**
allows constant manifold speed with no lubrication

**15 Minute Timer** on oil skimmer prevents over skimming

**Thermo Insulation is standard on all INSTA-CLEAN parts washers.** Saves on energy costs. Oil skimmers have thick 11 GA. Stainless steel discs and scraper blades. Parts washers with built on oil skimmers have a shutter door inside the washer. Keeps oil skimmer side of parts washer clean. Industrial rated seal-less pumps are standard, no pump seals to leak. INSTA-CLEAN models IC-7 and IC-10 are designed with parts trays that roll completely out onto the door, making it assessable from three sides. Easy loading of even the heaviest of parts to be cleaned. INSTA-CLEAN models IC-4 and IC-7 are supplied with an electric cord and wall receptacle. INSTA-CLEAN parts washers are painted with an industrial grade polyurethane (rubber) coating. Long lasting and chemical resistant. Full port 2” ball valves are standard on models IC-7 and IC-10.

**Heating on the IC-7 can be changed to 3-phase in just minutes.**

**Large 26” Diameter Parts Tray** rolls completely out on door for easy loading and unloading of parts.

**Built In Oil Skimmer** has stainless steel disc and blades.

**Shutter Door** inside machine closes off skimmer box to keep steam and oil mist off side of parts washer.

**360 Degree Manifold with Offset Jets**, rotates 360 degrees around the parts tray (full spray coverage)

**THERMO INSULATION**
Energy Efficient

**ACCESSORIES**

- Parts Baskets, Regular and Divided
- Cleaning Compound, Several Blends
- Portable Oil Skimmers
- Parts Trees, Standard and Custom

**ICC-816B**
Conveyerized belt washer. Available in other sizes and configurations. Designs for medium to high production.

**ICPT-2620**
Pass thru washer. Baskets are independent from the washer. Automatic doors and wash cycles. High speed cleaning and ease of material handling.
